

Datasäkerhet - Lab 5

Course DT523A

Alberto Giaretta, PhD

Centre for Applied Autonomous Sensor Systems (AASS)
Örebro University, Sweden

2022/2023

Client side

- In this 5th and last lab, we practice with Client side attacks
- Again, you need OWASP WebGoat
 - In this slide you'll find again the instructions for installing it
- Today module to complete
 - Client side module, all three Bypass front-end restrictions, Client side filtering, and HTML tampering

Report

- Discuss the module you completed
 - What did you learn? Write your reflections and insights
- Attach a couple of screenshots that show what you have done
 - Hackers take “trophy pictures” all the time, vanity is the keyword! ;-)
- Strict deadline for handing in the report
 - ***June 2nd 23:59***
