SQL Injection

- In the previouse lectures we discussed database security and SQL injection attacks

  – Here are some practical exercises

- Again, you need OWASP WebGoat

  – In this slide you'll find again the instructions for installing it

Report

- Discuss the module you completed
  - What did you learn? Write your reflections and insights
- Attach a couple of screenshots that show
  what you have done
  - Hackers take "trophy pictures" all the time, vanity is the keyword! ;-)
- Strict deadline for handing in the report
  - *May 19th 23:59*

Today Modules

- Module (A3) Injection
  - SQL Injection (intro)
  - SQL Injection (mitigation)
